Green Campus Committee Resolutions with Action Taken Report

2022-2023 and 2023-2024

MEETING NUMBER	RESOLUTIONS	ACTION TAKEN
1 Dated 23.03.2022	<ol style="list-style-type: none">1. Discussion regarding name plates of trees in the college campus.2. Discussion regarding plantation drives.3. Discussion regarding plant health management.4. Discussion regarding the water management in the college campus.5. Discussion regarding the implementation of various sources concerned with green standards and sustainability.6. Miscellaneous.  <p>PRINCIPAL ACHHRURAM MEMORIAL COLLEGE JHALDA, PURULIA WEST BENGAL</p>	<ol style="list-style-type: none">1. Name plates for trees on our college campus involved several steps aimed at both educating the campus community and preserving the information about the trees. Installation of Name Plates: Name plates on Trees of College campuses are installed to identify species, age, and other relevant information such as the common and scientific names of the trees, their origins etc.2. In addition to identifying trees, name plates are included educational information about the ecological benefits of the species, its historical significance, or how it contributes to the campus environment.3. Collaboration with Departments have been taken place. Departments like botany and zoology were involved in creating and placing these name plates, ensuring accuracy and educational value.4. Students projects are undertaken in SEMESTER 1 to create and maintain name plates as part of their coursework or extra-curricular activities. This involvement helped them learn more about botany and environmental stewardship.5. Regular maintenance were assigned among students to ensure name plates remain legible and intact. This also involved cleaning, replacing damaged plates, or updating information as needed.6. Recent actions on plantation drives included planting trees in deforested areas, increasing public awareness, and partnering with organizations for large-scale efforts, Plantation drives in college areas are often organized by student groups alongwith college administrations to promote sustainability and improve campus

		environments. 7. Students are engaged to take on leadership roles in planning and executing these drives, fostering a sense of responsibility and engagement in environmental issues.
2 Dated 08.11.2022	<ol style="list-style-type: none"> 1. Confirmation of the resolutions of previous meeting. 2. Discussion regarding various green initiatives. 3. Discussion regarding green audit. 4. Discussion regarding purchase and use of dustbins for waste. 5. Miscellaneous.  <p>PRINCIPAL ACHHRURAM MEMORIAL COLLEGE JHALDA, PURULIA WEST BENGAL</p>	<ol style="list-style-type: none"> 1. as the green initiatives were planned in the meeting so Community Engagement has been done. Our College hosted events and bio visit to educate the campus community about the diverse range of trees and their significance. 2. Green audit has been done as per University recommendation 3. Pair of green and blue dustbin are bought and planted in various places of the college. Using blue and green dustbins on a college campus typically follows a colour-coded waste segregation system. <p>Blue Dustbins: Generally used for recyclables such as paper, plastic, and glass. They help in the efficient sorting and recycling of materials, reducing landfill waste.</p> <p>Green Dustbins: Typically designated for organic waste like food scraps and yard waste. This waste can be composted to create nutrient-rich soil and reduce overall waste volume.</p> <ol style="list-style-type: none"> 4. Educational Campaigns also have taken place. Colleges often run awareness programs to educate students and staff on proper waste segregation practices through observing and celebration EARTH DAY, WORLD ENVIRONMENT DAY etc. 5. Regular Monitoring are tried to establish through student-teacher meeting. Maintenance teams have ensured the bins are emptied regularly and that the waste is properly processed according to local regulations.
3 Dated 19.02.2023	<ol style="list-style-type: none"> 1. Confirmation of the resolutions of previous meeting. 2. Discussion regarding 	<ol style="list-style-type: none"> 1. As Eco clubs play a crucial role in promoting green practices and environmental stewardship, so in our college Eco club has been made with 50 students. Awareness and Educational programmes are assigned to Eco club to

educate members and the broader community about
environmental issues and sustainable practices. Our
students help people understand the impact of their
actions on the environment and provide knowledge on
how to reduce their ecological footprint throughout the
year in different NSS programmes. As part of Community
Engagement this club has organized events, workshops,
and campaigns that engage the community in
environmental initiatives. It should be mentioned that our
Eco club frequently undertake hands-on projects such as
tree planting, recycling drives, clean-up events, and
conservation efforts. These projects have tangible benefits
for the environment and demonstrate practical ways to
implement green practices. Apart from all, Eco club has

2. Separate bathroom for Divyangjan with the help of Zilla
Parishad has been constructed.

3. By promoting sustainable practices and fostering a green
mindset, eco club helped embed environmental
responsibility and tried to maintain a rain water harvesting
pond constructed by SDO.

4. two pair of color-coded dustbins were brought and
placed in different parts of main building. Eco club is
constantly educating, engaging, and empowering
individuals and communities to adopt and advocate for
rain water preservation.

<p>4 Dated 23.06.2023</p>  <p>PRINCIPAL ACHHRURAM MEMORIAL COLLEGE JHALDA, PURULIA WEST BENGAL</p>	<ol style="list-style-type: none"> 1. Confirmation of the resolutions of previous meeting. 2. Discussion regarding plantation drive. 3. Discussion regarding the management for water wastage from overhead tanks. 4. Discussion regarding organization of certificate-courses related to environment. 5. Discussion regarding cleanliness drive. 6. Miscellaneous. 	<ol style="list-style-type: none"> 1. Plantation drives led by college students have taken place twice in a year. Members of Eco club, NSS and NCC are not only contribute to reforestation and beautify the campus but also foster environmental awareness and responsibility among the participants. These drives can serve as practical learning experiences, allowing students to delve into environmental science and sustainability practices. Moreover, they helped to build a sense of community and collective effort, showcasing students' commitment to green practices and setting an example for others. 2. Sensor tank was proposed to construct and an estimate has been sent to GB. 3. Certificate courses were held by Zoology and Botany departments.
<p>5 Dated 09.09.2023</p>	<ol style="list-style-type: none"> 1. Confirmation of the resolutions of previous meeting. 2. Discussion regarding green audit report. 3. Follow-up regarding certificate course. 4. Miscellaneous 	<ol style="list-style-type: none"> 1. A green audit report in a college setting is a comprehensive evaluation of the institution's environmental performance and sustainability practices. University team for green audit has done Benchmarking and Assessment. The report provides a baseline for understanding the college's current environmental impact. It helps identify areas where the institution is performing well and areas needing improvement. This assessment is crucial for setting realistic and informed sustainability goals. They have also Identified Opportunities for Improvement by highlighting inefficiencies and areas of waste, the green audit report helps the college implement strategies to reduce its environmental footprint. They included some recommendations for energy conservation, waste reduction, water efficiency, and sustainable procurement practices. The findings of the green audit can be used to raise awareness about environmental issues within the college community that helped educate students, faculty, and staff about the importance of

	 <p>PRINCIPAL ACHHRURAM MEMORIAL COLLEGE JHALDA, PURULIA WEST BENGAL</p>	<p>sustainability and the steps they can take to contribute. The report has provided data and insights that inform decision-making processes related to campus operations and sustainability policies. This evidence-based approach ensures that policies are grounded in actual performance and needs. They have suggested that regular green audits allow the college to track progress over time which in terms helps in evaluating the effectiveness of implemented initiatives and making necessary adjustments to improve performance. As a well-documented green audit report can help the college gain recognition and certification from environmental organizations or accreditation bodies so that visit enhanced the institution's reputation and appeal to prospective students who value sustainability.</p>
<p>6 Dated 10.02.2024</p>	<ol style="list-style-type: none"> 1. Confirmation of the resolutions of previous meeting. 2. Discussion regarding green audit report. 3. Discussion regarding the extension of the medicinal garden of the college campus. 3. Miscellaneous  <p>PRINCIPAL ACHHRURAM MEMORIAL COLLEGE JHALDA, PURULIA WEST BENGAL</p>	<p>1. green audit report has been done by SKBU. The suggestions were Promoting Student Engagement. So we have involved students in the green audit process through data collection, analysis, implementation of recommendations that provides valuable learning experiences. It fostered a sense of responsibility and empowerment among students regarding environmental stewardship. Identifying inefficiencies and areas where resources are wasted can lead to cost savings for the college. Reducing energy, water usage, and waste can lower operational costs and reallocate funds to other areas.</p> <p>Overall, we have admitted that green audit report is a vital tool for guiding and improving a college's environmental practices, promoting sustainability, and involving the campus community in achieving greener operations.</p> <p>2. extension of the medicinal garden of the college campus has been done. Mr. Ghanashyam Mahato has taken the leadership and responsibilities alongwith other teachers and student members of NSS and NCC.</p>
